

ACIC NIBRS OFFENSE DEFINITIONS

The definitions that were developed for the NIBRS are not meant to be used for charging persons with crimes. They are simply a way of categorizing or organizing the crimes committed throughout Arkansas and the United States. State statutes must be very specific in defining crimes so that persons facing prosecution will know the exact charges being placed against them. On the other hand, the definitions used in the NIBRS must be generic in order not to exclude varying state statutes relating to the same type of crime.

Accordingly, the offense definitions in the NIBRS are based on common-law definitions found in *Black's Law Dictionary*, as well as those used in the *Uniform Crime Reporting Handbook* and the NCIC Uniform Offense Classifications. Since most state statutes are also based on common-law definitions, even though they may vary as to the specifics, most should fit into the corresponding NIBRS offense classifications.
